

YOUR LEGAL I.T.
TOTALLY
MANAGED.

TORONTO, September 21, 2010 - Welcome to Animate 2.0!

Over the past year, Animate Inc. has undergone a number of important changes that we are excited to tell you about. These changes have been designed in response to client feedback and our commitment to keeping on top of trends that can increase the efficiency of your practice.

The new [animate.com](http://www.animate.com)

Animate's website (www.animate.com) has been updated to reflect our company's new brand. It provides more information about our products and services, and includes a series of case studies that highlight actual Animate client experiences.

We are also pleased to launch **Animate Blogs**, which will allow us to tell you more about ongoing industry trends and offer technology tips that we think will benefit your firm.

Your needs have changed over time. We have changed to meet those needs.

Animate takes our commitment to meeting your changing IT needs very seriously. As such, we have increased the capacity of our **Helpdesk** by extending its hours from 8 a.m. to 8 p.m. and by adding new team members so we can solve more problems, faster.

We have also broadened our product offering to provide more complete IT solutions, so you never have to look elsewhere for an IT partner.

Please visit the new www.animate.com to learn more about all of our exciting upgrades, review our new case studies, and check out our blog.

We wish you all the best and ask that you please contact us with any questions you may have.

About Animate Inc.

Animate Inc. provides IT solutions and support for small and medium size firms. With over 15 years of experience, Animate has perfected the art of delivering quality solutions and support, so our clients can focus on their practice instead of their IT.
